You're driving on a dark-surfaced highway. The sky becomes overcast. It begins to rain. Traffic bunches up. You strain to see. "Slippery" warnings keep you tense. Then—suddenly you pass onto light-colored concrete. What a relief! Traffic moves out. No "slippery" signs. You know you're on a safer pavement.

Yes, the difference between a sickening swerve and a safe, quick stop often is the pavement. Concrete grips tires-helps you avoid accidents. Wet or dry, its gritty texture provides uniformly high skid resistance. Remember, no driver expects trouble but if it comes
